Four

Total Scheme Cost
£690,000

Total Grant
£444,000

Housing Needs Met
The scheme is built on a rural exception site to meet local housing needs

The Scheme

Consisting of four three-bedroom properties, Miles Field provides an excellent example of a rural scheme that has been built to a very high specification and blends in well with the local environment.

Key Features

This scheme is in a prominent position within an area of outstanding natural beauty so design, layout and choice of materials were particularly important.

The design and layout make maximum use of sunlight and solar gain, and provide spectacular rural views.

Completion Date
March 2007
